

BURKE

SUMMER
22

The adventure began 50 years ago...

In a tiny sail loft on the shores of Sydney Harbour, Martin Burke started out producing sails - which soon progressed to wet weather gear, bags and marine accessories. Over the last 50 years, our brand has become one of Australia's most respected and dynamic suppliers of outdoor and performance garments.

Renowned for innovative contributions to fabric development and garment design, our reputation has been built on great value products that always perform to the highest standard against all elements.

- Removable insole & ergonomic mid sole
- Pull tag for easy of fitting
- Raised heel for ease of removal
- Roll down top

Available in Dark Brown or Navy, the Flinders is constructed from split-grain oiled leather providing a heritage finish and supple fit. The durable leather upper is hand sewn with polyester yarn and threading through brass eyelets are marine-grade leather laces made in USA. Its slip-resistant TPR compound sole is designed using drainage gutters to disperse water and help prevent aquaplaning.

Flinders Leather Deck Shoe FLI

RRP \$119.00

Tan: Sizes EUR40-EUR47

Navy: Sizes EUR36-EUR47

- Hand Sewn Using Polyester Thread
- Slip-resistant TPR Compound Sole with Drainage Gutters
- USA Leather Laces
- Brass Eyelets

Designed to protect and keep your feet warm while providing excellent support and grip. The key to its design is its supple, rubber-compound sole that allows for a more fluid contact with the surface, increasing traction and flexibility. Its water-dispersing corrugated tread also reduces aquaplaning. Perfect for boating, diving, sailboarding and a wide range of other water activities.

Wetsuit Boot BOO91

RRP \$69.00 | **Sizes XXXS-XXXL**

- Supple Rubber-compound Sole for Traction and Flexibility
- Water-dispersing Corrugated Tread to Reduce Aquaplaning
- Soft Neoprene Upper for Insulation and Comfort
- Heel and Front Panel Reinforcement for Hiking
- Non-corroding Zip

The easy-fit Wetsuit Sneaker is perfect for boating, diving and a wide range of other water activities. Its Velcro strap ensures good support, and its supple, rubber-compound sole allows for a more fluid contact with the surface, increasing traction and flexibility. The Wetsuit Sneaker is designed to protect and keep your feet warm.

Wetsuit Sneaker SNE92

RRP \$59.00 | **Sizes XXXS-XXXL**

- Supple Rubber-compound Sole for Traction and Flexibility
- Water-dispersing Corrugated Tread to Reduce Aquaplaning
- Soft Neoprene Upper for Insulation and Comfort
- Heel and Front Panel Reinforcement for Hiking
- Velcro Strap Ensures Good Support
- Slip-on Design

Great for messing about the water, the D-MESH is a light-weight casual sneaker designed for comfort and flexibility. Made using a super flexible PVC sole and a Nylon mesh and Lycra upper, it is extremely comfortable and, above all, offers quick draining and fast drying. For extra convenience and comfort, it is fitted with an elastic lacing system designed for quick and easy donning.

DMesh Aquatic Trainer DME

RRP \$35.00 | **Sizes EUR36-EUR46**

- Light-weight
- Quick Draining and Fast Drying
- Super Flexible PVC Sole
- Nylon Mesh and Lycra Upper for Extra Comfort
- Elastic Lacing System for Quick and Easy Donning

Headwear

FABRIC PROFILE:

UP50+
QUICK-DRY

Specially designed for sailing, this quality canvas hat features a wide stiffened brim, large ventilation eyelets and an under chin cord with adjusting toggle. It also has a peak inserted in the brim at the front to stop the brim from flopping in the wind or when wet.

Canvas Sailing Hat HAT234

RRP \$39.00 | Sizes S-XXL

- Pre shrunk 12 ounce canvas
- Adjustable chin cord with toggle
- Ventilation eyelets
- Stiffened brim
- Dark blue under brim to reduce reflection
- Specifically designed for boating
- Stiffened Front Peak

A boating essential, the new range of hats has been designed for the person on or near the water. Made from quick dry material and non corroding materials it has a UPF50+ rating. The adjustable chin strap, stiff brim and stiff peak in the front of the brim make it ideal on windy or wet days.

Quick Dry Sailing Hat HAT206

The Adjustable Trapeze harness has been designed for general purpose use and its multi-fit design comfortably fits most crew members.

Adjustable Webbing Harness TRA177N

RRP \$229.00

- Stainless steel hook and plate
- Elasticised shoulder retainer
- Durable nylon shell with reinforced seat
- Easy to adjust shoulder strap buckle
- Zero water retention
- Buoyant closed cell foam padding
- Adjustable non-slip 'set and forget' waist band

The sit-in design offers good support, maneuverability and maximum comfort. Using High-strength, double-layer, 48mm lifting strap with two reinforced loops for halyard attachment. The padded seat and lower back support with integral crotch strap and adjustable waist belt provides comfort and security even when aloft for long periods of time. Two handy, wide-mouth utility pouches with webbing loops for tool lanyards.

Rigid Seat Bosuns Chair BOS212

RRP \$149.00

SCAN ME

A safety harness for children up to 20 kg tested and approved to EN1095/EN ISO 12401. This safety harness has a specially designed beaver tail crutch strap which enables the child to be lifted and carried. Non-magnetic stainless steel fittings with a sturdy D-ring for safety line attachment are fitted on the back.

Child Safety Harness CHI22S

RRP \$69.00

The Horseshoe Life Buoy is made from flexible closed foam with zero water retention and offers continuous floatation. Complies with AYF special regulations 4.17 and 4.21.

Horseshow Lifebuoy YA Orange/White
RRP \$99.00

- PVC Nylon
- Complies with AYF special regulations
- Closed cell buoyancy foam
- Made from double coated P.V.C
- Float open and closes with a side release clip

Made from durable PVC-coated fabric, the Lifebuoy Stow Bag is the ideal solution to protect your Burke Lifebuoys from UV and salt water damage, as well as keep your boat tidy. Its user-friendly, top-opening Velcro closure facilitates speedy deployment of the lifebuoy, while its Quick Stop guide incorporated on the back of the bag provides the user with ready-to-hand emergency retrieval instructions. It is designed to easily attach to a variety of safety rail and stanchion configurations. It also contains a convenient internal pouch for a lifebuoy light and drogue and fits all of the Burke Lifebuoys.

Horseshow Stowbag LIF222B
RRP \$69.00

- Top Opening With Velcro Closure for Fast Access
- Internal Pouch for Light and Drogue
- Easy to Attach and Remove When Not in Use
- Non-Corroding Fasteners
- Reinforced Webbing Attachments
- Quick Stop Instructions to Assist Emergency Retrieval
- Suits a Variety of Safety Rail and Stanchion Configurations

The drogue attaches to horse shoe float or dan buoy to reduce wind drift. The weighted drogue's flexible wire hoop springs open when removed from the pouch ready for an emergency. Comes complete with storage pouch. Complies with AYF requirements.

Lifebuoy Drogue DRO150N
RRP \$25.00

- Made from nylon fabric with nylon attachment cord
- Comes with storage pouch
- Complies to AYF requirements
- Weighted wire hoop

An integrated rescue float and lifting sling for man overboard rescue and recovery. Closed cell foam flotation, retro-reflective patches, wraparound heavy duty webbing straps, 45 mts of 8mm floating line. Reinforced PVC stow bag that is easy to attach and remove from boats rail. Meets YA SR 4.21 Lifebuoy requirement when a self-igniting light fitted.

**Retriever Float Lifesling and Stowbag
RET227 | RRP \$229.00**
**Replacement Stowbag RET228B
RRP \$49.00**

The Easy Stow is a great value sea anchor that stores inside its own bag (the bag also acts as a break). The Easy Stow controls your boat's movements and reduces wind drift in open water when resting, eating, fishing, riding out rough weather and keeps your boat in the area longer if waiting for rescue.

Two Sizes:
Size - 51cm / 20"
Size - 64cm / 25"

**Easy Stow Drift Anchor EASY20/25
RRP \$35.00 | \$39.00**

Comes with its own bag and is easily stored in a small space by simply collapsing the 2 diagonal support struts. The Sea Anchor controls your boat's movements and reduces wind drift in open water when resting, eating, fishing or riding out rough weather and keeps your boat in the area longer if waiting for rescue.

Two Sizes:
Size - 50 cm / 20"
Size - 61 cm / 24"

Collapsible Sea Anchor SEA198 | RRP \$69.00
Collapsible Sea Anchor SEA199 | RRP \$79.00

This compact throw bag has 15.2 metres of 3 strand floating line stowed in a nylon bag. Easy to use, simply grasp the hand loop at the draw string end with your non-throwing hand and throw bag at target.

Throw Bag THR152 | RRP \$39.00

Vinyl-covered Closed Cell Foam with secure Velcro opening. Reinforced webbing allows vertical or horizontal usage.

PE Vinyl Fenders

S: FEN4017 - 40cm x 16.5cm x 5cm | RRP \$39.00
M: FEN5025 - 50cm x 25cm x 7.5cm | RRP \$59.00
L: FEN6630 - 66cm x 30cm x 7.5cm | RRP \$79.00

Made from PVC and sewn to a cord, this easy to install device is designed to scare birds away all year round.

Bird Scare Flags BIR250C

RRP \$25.00

Length 7.9m

The windscoop is an aerodynamically designed sail that directs fresh air into stuffy cabins. It fits any hatch and comes complete with supporting battens and tubes. Made from nylon sailcloth it can be flown from a halyard or roller furling sheet.

Wind Scoop Cabin Cooler WIN100W

RRP \$59.00

The deluxe acrylic sheet bags are made from UV resistant Acrylic Canvas.. Openings close completely. Features drainage mesh, fibre reinforced battens and stainless steel eyelets.

Deluxe Acrylic Canvas Sheet Bags

S: SB37 - 37cm x 25cm x 15cm | RRP \$45.00
L: SB50 - 50cm x 29cm x 20cm | RRP \$49.00

Ideal for neatly stowing odds and ends, rope tails. Made from tough polyester mesh P.V.C. coated for good U.V. resistance and long life. Water and dirt flow straight out allowing ropes to dry faster.

Rope Tidy Bags

S: TID160S - 370mm x 250mm | RRP \$29.00
L: TID160L 500mm x 290mm | RRP \$35.00

Designed and manufactured to absorb very high loads, Seabrake is manufactured from durable high density polyester fabric, heavy grade polyester thread and high strength polyester webbing with stainless steel wire hoops and towing thimble. Every Seabrake is supplied with its own easy to reference laminated Rigging and Application guide.

Seabrake's unique principle operates through the disbursement of water flow to induce local turbulence creating a variable pressure wave which is activated by speed through the water. The greater the flow through the unit, the greater the drag effect. As the water is disbursed evenly through the four (4) exhaust ports at the base of the Seabrake it tracks truly with no rotation, providing endless hours of tangle free operation and reliability.

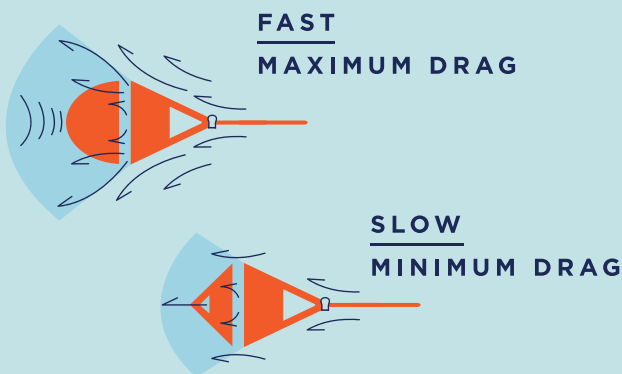

- ANTI-SURFING/BROACHING DEVICE
- EMERGENCY STEERING
- STABILIZER
- SEA ANCHOR
- ANTI-ROLL DEVICE AT ANCHOR
- SPARE MAN OVERBOARD DEVICE

UNIQUE FEATURES:

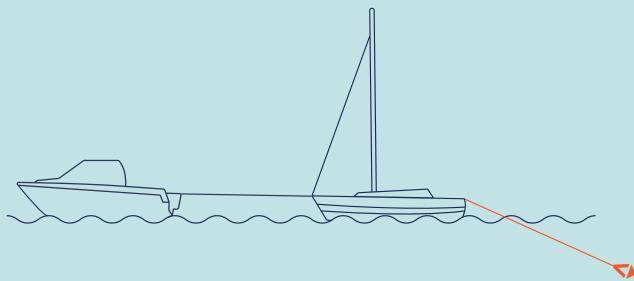

- Twice the drag of conventional sea anchors & drogues
- Up to 11 applications including emergency steering
- Superior durability
- Doesn't rotate and is tangle free
- Formally tested by credible authorities and institutions
- Original design

TRIPLE LAYER
PB20
PERFORMANCE BREATHABLE

Windproof, waterproof and highly breathable - PB20's advanced three layer construction eliminates the need for secondary linings, increasing breathability, reducing weight and speeding up drying times.

CB10
BREATHABLE

Breathable, waterproof and windproof - CB10 fabrics utilize a DWR treated woven polyamide outer bonded to a specially formulated breathable coating that allows perspiration and condensation vapor to transfer through the fabric whilst maintaining wind and waterproofness.

DW10
DURABLE WATERPROOF

Waterproof, windproof and durable - DW10 has been developed for recreational and light commercial activities, both on the water and onshore. Super durable PVC coated outer shells. Combined with breathable linings for superior comfort and condensation control.

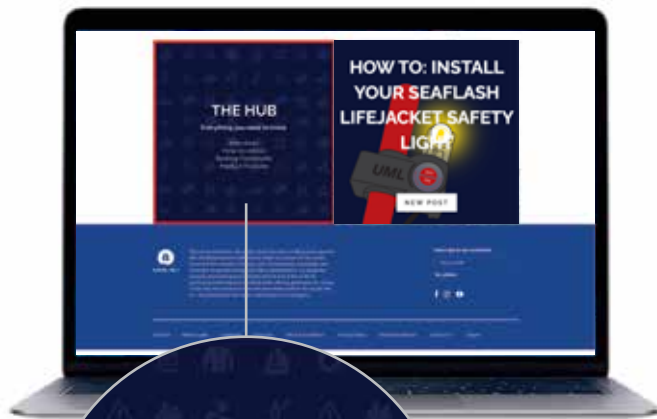

UP50+
QUICK-DRY

Advanced breathable UP50+ rated quick dry fabric, incorporating enhanced moisture management yarns for superior comfort and performance, wet or dry. Combined with Mynx UV technology, get a high level of dependable, physical protection against both UVA and UVB rays.

TERMS & CONDITIONS

- 1. Pricing:** All prices quoted, unless otherwise stated, are unit price 'ex-warehouse'. All prices are subject to alteration without notice. All quoted pricing is applicable to approved Burke Marine retailers only.
- 2. Payment terms:** Payment for goods supplied must be made within the terms stated on the invoice. Burke Marine accepts payment by cash, cheque, credit card or by electronic funds transfer. Early payment discounts may only apply to approved account holders and may only be deducted where payment has been received within the payment terms stated on all Burke Marine invoices and as outlined in the "Early Payment Discount" terms below.
- 3. Early Payment Discount:** When the Early Payment Discount is offered, payment must be received in full with the Retailer's "Early Payment" period as quoted on the invoice. The early payment discount is not deductible on any invoice payments received outside the "Early Payment" terms stated on invoices or on accounts with any payments in arrears.
- 4. Freight & Service Charges** Free freight is available to mainland capital cities on orders exceeding AUD 450.00 exclusive of GST and invoiced freight charges. Freight will be charged on consignments at Burke Marine's regular carrier fees. Freight charges may apply for bulkier items outside of the terms stated above. A 'Small Order' Service charge of AUD 5.00 exclusive of GST will apply to orders not exceeding AUD 450.00 exclusive of GST sent using a carrier outside of Burke Marine's nominated carrier. Burke Marine accepts no responsibility for lost or damaged goods sent at the request of a retailer to a third party.
- 5. Guarantee of payment:** The customer agrees with Burke Marine to be personally liable to pay all monies payable to Burke Marine pursuant to this agreement. The customer shall be jointly and severally liable for payment and that liability shall not be discharged until Burke Marine has been paid in full.
- 6. Overdue Accounts:** In the event that Burke Marine extends a credit facility, then payment of all accounts not paid in cash on delivery must be paid, as per agreed terms stated on the invoice. After this date, Burke Marine may elect proceedings for any outstanding amount without notice. In the event of overdue accounts, Burke Marine may elect to impose a 5% administration fee per month until all monies are collected in full. The client signatory agrees to indemnify Burke Marine and pay all costs and expenses of a solicitor if legal action is necessary and Credit Control fees which we may incur by recovering from you any overdue amount.
- 7. Conditions of Sale:** No products or goods purchased from or produced by Burke Marine shall be resold by the Retailer through any location other than the Retailers agreed bricks and mortar store or URL, including an online auction (e.g., ebay) or online store (e.g., Amazon) without the express, written authority of Burke Marine. If the Retailer resells via a third party, Burke Marine reserves the right to terminate the supply of goods immediately. The representation of the Burke Marine brand must be within the agreed Burke Marine Brand & Design Guidelines Version 2.0.
- 8. Ownership of goods:** All stock remains the property of Burke Marine until all outstanding monies are paid in full. In the event of insolvency, bankruptcy, receivership, winding up, placement under official management or non-payment of goods then Burke Marine shall have unconditional and unfettered right of repossession of any goods held by the principal. The principal agrees that Burke Marine may, at its discretion; enter the premises of the customer for the purpose of recovering goods supplied by Burke Marine if the customer has failed to pay for those goods as per the terms described under "payment terms" above.
- 9. Return of goods:** Prior approval must be obtained from Burke Marine prior to returning any goods for credit. All claims by the customer in respect of goods must be notified in writing within 7 days from delivery date. Burke Marine reserve the right to deduct a 15% restocking fee on returns accepted after this time or on items with damaged packaging.
- 10. Warranty claims:** Prior approval must be obtained from Burke Marine prior to refunding or replacing any goods under warranty. Burke Marine may also request that a defective or damaged item be returned to Burke Marine for examination and / or digital images be supplied before authorising a replacement, repair of goods or account adjustment.
- 11. Disclaimer:** Information and applications as suggested herein and, on any Burke Marine promotional material are guidelines only. In no event shall Burke Marine be liable for any damages in respect to the sale or use of any product greater than the amount of the purchase price received by Burke Marine for that particular product.
